# Christie Lake Disc Golf Course

## Disc Golf at Christie Lake

Eighteen holes of flying fun are now open at Christie Lake Conservation Area with the introduction of disc golf: an exciting outdoor sport, gaining popularity world-wide.

Disc golf is a great outdoor activity, perfect for individual play, team play, and organized competition. It's been around for more than 30 years, and more than 1200 courses exist in North America alone, with 100 new courses being built worldwide every year. Set up like a golf course, disc golf holes wind through fields and forests to reach the basket but played with flying discs rather than clubs and a ball.

First played in the 1970s, the sport has even gone pro over the last few decades. Professional disc golf associations hold tournaments all over the world for men, women, and children. In fact, disc golf associations here in Ontario are looking forward to trying Christie Lake's new championship layout.

Even if golf is not your bag, disc golf can be fun part of your picnic with friends or family.

**Christie Lake Conservation Area** offers a 336-metre sand beach, canoe rentals, a food concession, and fishing on the lake or in the ponds. Pavilions and group areas are available for family and company events. Ten kilometres of hiking trails wind around the lake and through the Wildlife Management Area. With the addition of Disc Golf, there's one more reason you'll never run out of things to do at Christie Lake.
