2014-2019**

## HCA Strategic Directives

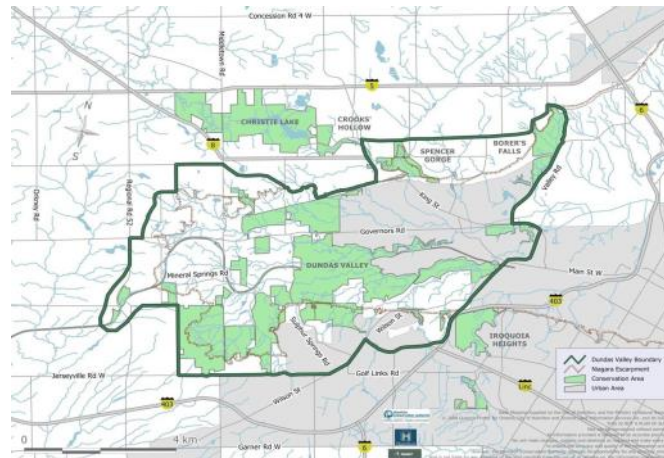

- Protect and Enhance the Connectivity of Ecosystem
- Protect Rare and Endangered Species
- Combat Invasive Species
- Protect and Enhance the Health of Streams, Watercourses, and Falls

## Non-HCA Strategic Directives

- Preserve the Escarpment and Rural Countryside, including selected vistas
- Promote Local Food, as well as Agriculture as an Industry and Lifestyle
- Maintain and Protect Local Architecture and Natural Heritage
- Develop a Valley-wide Sustainable Tourism Business Plan
- Promote Green Business in the Dundas Valley
- Support the development of the 'Special Character' Roads

The Dundas Valley 50 Year Vision is a comprehensive community centric initiative with the goal of preserving and enhancing the Dundas Valley Area well into the future. This community centric initiative will be focused on promoting community projects that address the areas outlined by the 10 Strategic Directives prioritized for Implementation Strategy Cycle 1 (ISC1).

The Dundas Valley Area is unlike any other area in Hamilton, the mixed land uses, stewardship and care by its residents creates a truly unique and engaged community. The Dundas Valley 50 Year Vision seeks to maintain the unique attributes and character of this area, and promote efforts by the Hamilton Conservation Authority, other Organizations, and individuals that seek to either preserve or enhance the community, in part or as a whole.
