

Dundas Valley 50-Year Vision and Strategy | 2008-2058

A community oriented strategy with a focus on preserving and enhancing the unique, culture, charm, and environment of the Dundas Valley area.

Enhancing the Economic Sustainability and Vibrancy of Dundas Valley Communities

Goal: Ensure pedestrian, bicycle, and transit friendly Valley communities

Strategic Direction

- Increase the connectivity of the Valley's communities and neighbourhoods

This is taken from two original strategic directions which state:

Create transit, pedestrian and bicycle linkages and visible gateways and entrances between the Valley and neighbouring communities

And

Achieve public awareness and increased use of active transportation and transit

Actions

- **Establish walking and bicycle linkages between the Valley and neighbouring communities**
- **Add or maintain foot trails and bike paths in the downtown cores (in addition to green spaces)**
- **Ensure conservation area access by mass transit**
- **Encourage people to use public transit when possible or bike/walk**
- **Publish maps of various trails and how to access the conservation area by transit**

For the Dundas Valley 50-Year Vision and Strategy to be realized and its actions fulfilled the community needs to take on a leadership role.

Notes
