

Dundas Valley 50-Year Vision and Strategy | 2008-2058

A community oriented strategy with a focus on preserving and enhancing the unique, culture, charm, and environment of the Dundas Valley area.

Enhancing the Economic Sustainability and Vibrancy of Dundas Valley Communities

Goal: Ensure development best practices that are compatible with the natural environment

Strategic Direction

- Promote a sustainable built environment

This is taken from the original strategic direction which states:

Ensure sufficient environmentally sustainable infrastructure capacities for water, sewer, roads, etc. within the Valley areas to minimize impacts on the environment

Action

- **Continue to include environmentally sustainable infrastructure in City plans**

For the Dundas Valley 50-Year Vision and Strategy to be realized and its actions fulfilled the community needs to take on a leadership role.
