

# Importance of Plants

Plants have many uses which make them important! Plants return oxygen to the air which we need to breathe. They are also a main food source for many creatures. Some animals eat grass, some eat leaves, while other creatures drink nectar from flowers. Plants, such as trees and bushes, also provide homes for animals.

Pick a tree you can see from a window or your backyard and answer the questions below!

I think my tree is a: \_\_\_\_\_

It grows here: \_\_\_\_\_

My tree's bark is (circle the 3 words that best describe it):

Green Grey Spotted  
Brown ROUGH Bumpy  
Curly Smooth  
Peeling  
Holey Striped

Draw, trace, or take a rubbing of your tree's leaf and bark.
