

Spot the Do's and Don'ts!

Can you spot and circle the 5 differences? They show the do's and don'ts on our trails and in our conservation areas.

- Dogs are welcome, but you must leash and clean up after them.
- Stay hydrated, especially when doing physical activity or on hot days.
- Respect plants, trees and wildlife. Do not remove anything from a conservation area.
- Take out any packaging or other items that you bring in.
- Creek crossings on trails are by bridge. Don't walk or ride through the water.
