HCA Inventory of Programs & Services

*As required for Conservation
Authority Act Amendments*

January 20, 2022

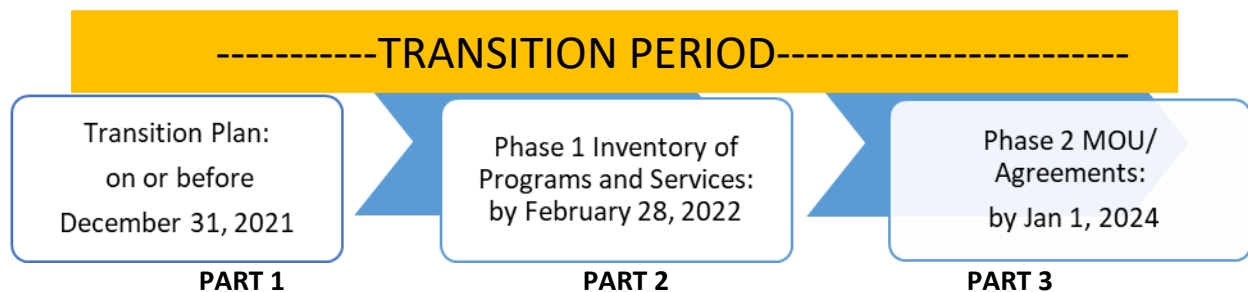

BACKGROUND

On October 7th, 2021, three (3) new regulations were instituted under the *Conservation Authorities Act*.

- Ontario Regulation 686/21: Mandatory Programs and Services.
- Ontario Regulation 687/21: Transition Plans and Agreements for Programs and Services
- Ontario Regulation 688/21: Rules of Conduct in Conservation Areas.

The recently proclaimed provisions within the *Conservation Authorities Act* and these accompanying regulations establish the requirements for Transition Plans and Agreements for Programs and Services (see Section 21.1.2 of the Act and [Regulation 687/21](#)).

The key components and deadlines for the Transition Plan are illustrated in the figure below. The purpose of the transition period is to provide conservation authorities and municipalities the time to address changes to the budgeting and levy process prior to implementation of the new provisions on January 1st, 2024.

In order to be in compliance with Regulation 687/21, the HCA Board of Directors approved the HCA Transition Plan at its November 4th, 2021 meeting, following the requirements set out by MECP.

As shown in the figure above, the Board approved Inventory of Programs and Services is required by February 28th, 2022.

The Board approved inventory of programs and services is required to be circulated to HCA's participating municipalities, the City of Hamilton and Township of Puslinch and be published on the conservation authority's website or made available to the public by other means. The inventory may be amended after the February 28th deadline based on feedback received from participating municipalities during the balance of the transition phase from the February 28, 2022 deadline to December 31, 2023. Upon agreement to the inventory, municipal partners will need to enter into formal agreements for any Category 2 and 3 programs and services where municipal levy or funding is proposed to be used.
