

CORPORATE TEAM EXPERIENCES

Partnering with the Hamilton Conservation Foundation, the Hamilton Conservation Authority (HCA) facilitates employee volunteer days for businesses and organizations looking to get involved and give back to the Hamilton community. These team building programs are a meaningful opportunity to get out of the office, experience nature, and deepen staff appreciation for local conservation.

We have several opportunities available for the 2026 field season. Our Volunteer Engagement Coordinator will work with you to find the right opportunity for your group and create an engaging experience for your team.

All volunteer experiences include:

- Safety talks, instructions, and project-specific guidance from knowledgeable HCA Staff
- Equipment and tools for your entire team
- Light refreshments after your team's hard work
- A Post-Event Impact Report showcasing your team's contributions and involvement in our watershed
- A social media post on the Hamilton Conservation Foundation social media pages

"A very rewarding experience while enjoying the beautiful waterfront. It was fantastic to interact with members of the public walking the path and hear their appreciation as well."

Larissa Van Lochem, AiM Land Services

Hamilton Conservation Foundation

Your Nature • Your Legacy

"Thanks for all that you do in our Hamilton community. We are thrilled to be able to support you."

Catie Prang, RBC

CORPORATE TEAM EXPERIENCE OPPORTUNITIES: 2026 FIELD SEASON

Shoreline Cleanup

- Meet at Confederation Beach Park (easily accessible from the QEW, excellent for team members coming from outside of Hamilton)
- As a team, clean a section of the beach, returning to the meet-up location. The garbage and recycling is then weighed and recorded
- 2-hour time commitment
- Accessibility level: Easy to moderate

Cost: $500/team

Invasive Species Removal

- Meet at a designated location in the HCA watershed where invasive species are prevalent
- An HCA staff member provides an overview of the species being removed. Heavier equipment such as “extractigators” will be used to clear the area and prep for further restoration work
- 2-hour time commitment
- Accessibility level: Moderate to difficult

Cost: $750/team

Tree Planting

- Meet at a designated location in the HCA watershed where a planting is scheduled
- Work together as a team to plant native trees, shrubs, or herbaceous plants to restore an area
- 3-hour time commitment
- Accessibility level: Moderate to difficult

Cost: $1000/team

Help shape tomorrow by getting involved today!

Become part of our extraordinary volunteer community.
